## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 31-34, drawn to a solar cell module.

Group II, claim(s) 14-17, drawn to a solar cell module.

Group III, claim(s) 18-27, 30 and 35, drawn to a continuous solar cell module encapsulation process.

Group IV, claim(s) 28-29, drawn to the use of liquid silicone encapsulant composition in a solar cell module.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature between the groups is an encapsulant that encapsulates one or more solar cells in a solar cell module. This element cannot be a special technical feature under PCT rule 13.2 because the element is shown in the prior art. EP 0578091 A to Toma et al. as cited in IDS discloses an encapsulant that encapsulates one or more solar cells in a solar cell module (page 2, line 26 to page 42, line 5, fig. 1-5).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
